INDEX TO VOLUME 13, FOREST SCIENCE, 1967

Art.—article; rev.—review; art. (rev.)—review of article or book by.
Authors are indicated by capitals.

Aberrant ovulate cones in balsam fir. art. 102
Abnormal ray tissue in three true firs infested by the balsam woolly aphid. art. 327
ALDRED, A. H. art. 419
ALDRICH, R. C. art. 300
ALLEN, ROBERT M. art. 253
Analysis of numerical change in gypsy moth populations. The. For. Sci. Monog. 15 (a separate)
ANDERSON, FRANKLIN K. art. 114
Area change estimates for sampling with partial replacement. art. 72
Aspen. Determination of sex from the vegetative buds of. More on the. art. 89
Aspen. Early growth of diploid, triploid and triploid hybrid. art. 150
Aspen. Nectria galligena and Ceratocystis fimbriata cankers of. In Minnesota. art. 23
Aspen, quaking. Effects of gamma radiation on juvenile and mature cuttings of. art. 240
ATTIWILL, PETER art. (rev.) 323
Auxin and the root-regenerating potential in ponderosa pine seedlings. art. 258

Balsam fir. Aberrant ovulate cones in. art. 102
Balsam woolly aphid. Abnormal ray tissue in three true firs infested by the. art. 327
Balsam woolly aphid infestation trend and estimated Fraser fir mortality. Using aerial color photography. art. 300
BARNES, BURTON V. art. 357
Beaver-damaged southern hardwoods. Decay in. art. 316
Beech, American, infested with oystershell scale. Twig and branch mortality of. art. 448
BENGTSON, G. W. art. 402
BENSON, MILES K. art. 150
BERISFORD, C. W. art. 428
Biochemistry. Plant. rev. 59
BLAKE, GEORGE M. art. 89
BOLLEN, W. B. art. 104
BROERMAN, BUD F. S. art. 207
BROWN, CLAUD L. art. 338
BROWN, ROBERT T. art. 84
Bud scales and leaves during the winter. Growth of. art. 400
BURNS, RUSSELL M. art. 438
Butt rot in yellow-poplar seedling-sprout stands. art. 440

CAMPBELL, ROBERT W. art. 19, For. Sci. Monog. 15. (a separate)
Carbohydrate, nitrogen, and phosphorus in expanding and year-old Douglas-fir shoots. art. 352
Carbon dioxide and oxygen affect the growth of wood-decaying fungi. art. 384
Ceratocystis fimbriata and Nectria galligena cankers of aspen in Minnesota. art. 23
Changing mile. The. rev. 323
Chemistry of cellulose and wood. The. rev. 209
CHILDS, T. W. art. 167
Climates, local. Indices for expressing differences due to forest cover and topographic differences. art. 60
Cone serotiny of lodgepole pine near West Yellowstone, Montana. art. 55
Coniferae and ginkgoaceae. A handbook of. rev. 325
Continuous recording of diameter changes in seedlings. art. 100
Controlled-environment chamber for measurement of gas-exchange of tree seedlings. A. art. 207
Correlations among fresh weight, dry weight, volume and total length of needles of Scotch pine seedlings. art. 426
Correlation between sugar concentration and volume yields in sugar maple, A.—An 18-year study. art. 346
Criteria for designing and locating logging roads to control sediment. art. 2
CUNNINGHAM, RICHARD A. art. 203
CURTIS, ROBERT O. art. 365, For. Sci. Monog. 13. (a separate)
Cycloheximide and Phytoactin in eastern white pine. Translocation and persistence of. art. 90

DALLIMORE, W. rev. 325
Damping-off. The function of the endodermis in resistance of Virginia pine seedlings to. art. 108
DAVIS, TERRY C. art. 106
Decay in beaver-damaged southern hardwoods art. 316
DeGROOT, RODNEY C. art. 448
Design and analysis of forest-mammal repellent tests. art. 333
Diameter changes in seedlings. Continuous recording of. art. 100
Dictionary of forestry. rev. 212
Dictionary. Russian-English forestry and wood. rev. 101
Differences among Scotch pine varieties in susceptibility to European pine sawfly art. 175
Distribution and size of the inter-tracheid pits in an eastern hemlock. The. art. 85
DOBY, G. rev. 59
DODGE, W. E. art. 333
DORSEY, C. K. art. 390
Douglas-fir. Equations for second-growth, height-diameter and height-diameter-age. art. 365

INDEX TO VOLUME 13, FOREST SCIENCE, 1967

Correlation between sugar concentration and volume yields in sugar maple, A.—An 18-year study. art. 346
Criteria for designing and locating logging roads to control sediment. art. 2
CUNNINGHAM, RICHARD A. art. 203
CURTIS, ROBERT O. art. 365, For. Sci. Monog. 13. (a separate)
Cycloheximide and Phytoactin in eastern white pine. Translocation and persistence of. art. 90

DALLIMORE, W. rev. 325
Damping-off. The function of the endodermis in resistance of Virginia pine seedlings to. art. 108
DAVIS, TERRY C. art. 106
Decay in beaver-damaged southern hardwoods art. 316
DeGROOT, RODNEY C. art. 448
Design and analysis of forest-mammal repellent tests. art. 333
Diameter changes in seedlings. Continuous recording of. art. 100
Dictionary of forestry. rev. 212
Dictionary. Russian-English forestry and wood. rev. 101
Differences among Scotch pine varieties in susceptibility to European pine sawfly art. 175
Distribution and size of the inter-tracheid pits in an eastern hemlock. The. art. 85
DOBY, G. rev. 59
DODGE, W. E. art. 333
DORSEY, C. K. art. 390
Douglas-fir. Equations for second-growth, height-diameter and height-diameter-age. art. 365

Douglas-fir. Factors affecting survival of Poria weirii in small, buried cubes of. art. 78
Douglas-fir, grand fir, and Engelmann spruce. Spruce budworm damage symptoms related to radial growth of. art. 274
Douglas-fir. A method of estimation of gross yield of. For. Sci. Monog. 13 (a separate) 13
Douglas-fir mycorrhizae, pure culture synthesis, with species of Hebeloma, Suillus, Rhizopogon, and Astraeus. art. 121
Douglas-fir, orchard grass, and blackberry. Translocation and metabolism of C^{14}-labeled tetramine by. art. 265
Douglas-fir, responses of, to elevated atmospheric fluorides. art. 114
Douglas-fir seedlings, exposure of roots. Seasonal variation in sensitivity of. art. 140
Douglas-fir seedlings. Food reserves and seasonal growth of. art. 192
Douglas-fir shoots. Nitrogen, phosphorus, and carbohydrate in expanding and year-old. art. 352
DROOZ, A. T. art. 300
DURZAN, D. J. art. (rev.) 59
Dwarfmistletoe effects on ponderosa pine growth and trunk form. art. 167

Early growth of diploid, triploid and triploid hybrid aspen. art. 150
EBEL, BERNARD H. art. 97
EDGREN, J. W. art. 167
EINSPAHR, DEAN W. art. 150
EMBREE, D. G. art. 295
Endodermis, function of, in resistance of Virginia pine seedlings to damping-off. art. 108
Equations, height-diameter and height-diameter-age, for second-growth Douglas-fir: art. 365
Estimated Fraser fir mortality and balsam woolly aphid infestation trend using aerial color photography. art. 300
European pine shoot moth. The.—Ecology and control in the Lake States. For. Sci. Monog. 14 (a separate)
Evidence for a direct effect of water stress on tracheid wall metabolism in pine. art. 397

Fertilizer .application, inherent fruitfulness, and rainfall affect flowering of longleaf pine. art. 376
Flotation, ether. Separation o' non-viable seeds of jack pine by. art. 84
Flower receptivity in sweetgum. Duration of pistillate. art. 95
Flowering of longleaf pine. Fertilizer application, inherent fruitfulness, and rainfall affect. art. 376
Fluorides, elevated atmospheric. Responses of Douglas-fir to. art. 114
Food reserves and seasonal growth of Douglas-fir seedlings. art. 192
Forest tending. rev. 181
Forest trees. rev. 313
Forestry theses accepted by colleges and universities in the United States. art. 213
FOWLER, D. P. art. 314
Fraser fir mortality, estimated, and balsam woolly aphid infestation trend using aerial color photography. art. 300
FRAYER, WARREN E. art. 72
FRENCH, D. W. art. 23
Fruitfulness Inherent, fertilizer application, and rainfall affect flowering of longleaf pine. art. 376
Fungi, wood-decaying. Oxygen and carbon dioxide affect the growth of. art. 384
FURNIVAL, GEORGE M. art. 72

Gamma radiation on juvenile and mature cuttings of quaking aspen. Effects of. art. 240
GATHERUM, G. E. art. 207, 426
GAUSSEN, H. art. (comment) 18
Gibberellic acid stimulates germination of sweetgum seed. art. 438
Gibberellin-like substance in immature pine seed. A. art. 29
GINNS, J. H. art. 440
GINRICH, SAMUEL F. art. 38
GORDON, J. C. art. 207, 426
Grand fir, Douglas-fir, and Engelmann Spruce. Spruce budworm damage symptoms related to radial growth of. art. 274
Growth of bud scales and leaves during the winter art. 409
Growth, seasonal, and food reserves of Douglas-fir seedlings. art. 192
Gypsy moth, numerical change in populations. Analysis of. For. Sci. Monog. 15 (a separate)
Gypsy moth. Studies on the sex ratio of the. art. 19

HAFNER, FRANZ rev. 210
Handbook of coniferae and ginkgoaceae. A. rev. 325
HARNER, FRANCES art. 114
HARRAR, E. S. art. (rev.) 325
HART, CYRIL E. rev. 326
HART, JAMES B. art. 203
HASTINGS, JAMES RODNEY rev. 323
Hemlock, eastern. The distribution and size of the inter-tracheid pits in an. art. 85
HERMANN, RICHARD K. art. 140
HOCK, W. K. art. 108
HOSSFELD, R. L. art. 89, art. (rev.) 209
HOUGH, ASHBEL F. art. 156
Hydrogen peroxide. Sterilization of red alder seedcoats with. art. 104
Hydrological role of forests. The. rev. 54
Hylobius weevil larvae attack roots of young slash pines. art. 97

Incompatibility in pine. Low grafting and

deep planting may prevent mortality due to. art. 314
Indices for expressing differences in local climates due to forest cover and topographic differences. art. 60
Infestation rate and damage by the Nantucket pine tip moth in six loblolly pine stand categories. art. 428
Insecticides, systemic, experiments to control acorn weevils with. art. 390
Intermittent acid minewater drainage on the radial growth of red maple. Effects of. art. 106

JACKSON, L. W. R. art. 321
JACKSON, MARION T. art. 60
JEFFERS, R. M. art. 240
JENSEN, KEITH F. art. 384
JEWELL, F. F. art. 413

KIPPEN, F. W. art. 419
KLARMAN, W. L. art. 108
KORMANIK, PAUL P. art. 338
KOZLOWSKI, T. T. art. 100
KRINARD, R. M. art. 316
KRUEGER, KENNETH W. art. 192, 352
KRUGMAN, STANLEY L. art. 29
KULMAN, H. M. art. 428
KUNKEL, G. rev. 211
KVERNO, N. B. art. 333

LAING, F. M. art. 346
LAMB, F. BRUCE rev. 77
LARSON, M. M. art. 286
LEAF, ALBERT L. art. 203
LEIBUNDGUT, HANS rev. 181
Liberian trees, two new books on. rev. 211
Light and moisture, influence of, on the growth of red pine seedlings in Minnesota. art. 182
LINNARD, W. rev. 101
LITTLE, ELBERT L., JR. art. (rev.) 211
Logging handbook rev. 210
LOTAN, JAMES E. art. 55
LOVELESS, C. M. art. 333
Low grafting and deep planting may prevent mortality due to incompatibility in pine. art. 314
LU, K. C. art. 104

Mahogany of tropical America—its ecology and management. rev. 77
MALLETT, S. L. art. 413
MANION, PAUL D. art. 23
MARVIN, J. W. art. 346
McGREGOR, W. H. D. art. 402
Measurement of gas-exchange of tree seedlings. A controlled-environment chamber for. art. 207
MERKEL, E. P. art. 97
Method of estimation of gross yield of Douglas-fir. A. For. Sci. Monog. 13 (a separate)
MILLER, WILLIAM E. For. Sci. Monog. 14 (a separate)
MITCHELL, RUSSEL G. art. 327
Moisture and light, influence of, on the growth of red pine seedlings in Minnesota. art. 182
MOLCHANOV, A. A. rev. 54
Monoterpene composition of the wood resin of Jeffrey, Washoe, Coulter and lodgepole pines. Variations in the. art. 246
More on the determination of sex from the vegetative buds of aspen. art. 89
MORSELLI, MARIAFRANCA art. 346
Moth. gypsy, populations. The analysis of numerical change in. For. Sci. Monog. 12 (a separate)
Moth, The European pine shoot.—Ecology and control in the Lake States. For. Sci. Monog. 14 (a separate)
Moth. Nantucket, pine tip, in six loblolly pine stand categories. Damage and infestation rate by the. art. 428
Moth, winter. Effects of on growth and mortality of red oak in Nova Scotia. art. 295
Mycorrhizae, Douglas-fir, pure culture synthesis, with species of Hebeloma, Suillus, Rhizopogon, and Astraeus. art. 121

NAUTIYAL, J. C. art. 131
NEAL, J. L., JR. art. 104
Nectria galligena and Ceratocystis fimbriata cankers of aspen in Minnesota. art. 23
NELSON, EARL E. art. 78
NEWMAN, JAMES E. art. 60
NIKITIN, N. I. rev. 209
Nitrogen, phosphorus, and carbohydrate in expanding and year-old Douglas-fir shoots. art. 352

Oak, red, effects of the winter moth on growth and mortality of. In Nova Scotia. art. 295
Optimizing the conversion to sustained yield—a programming solution. art. 131
OSBORN, KATHERINE H. art. 213
Oxygen and carbon dioxide affect the growth of wood-decaying fungi. art. 384
Oystershell scale. Twig and branch mortality of American beech infested with. art. 448

PACKER, PAUL E. art. 2
PARDE, LEON rev. 313
PAULEY, SCOTT S. art. 89
PEARSE, P. H. art. 131
PERRY, THOMAS O. art. 400
PHELPS, WILLIAM R. art. 90
Phenology of terminal growth in slash pine: Some differences related to geographic seed source. art. 402
Phenotypic variation associated with elevation in western white pine. art. 357
Phosphorus, nitrogen, and carbohydrate in expanding and year-old Douglas-fir shoots. art. 352

Photogrammetric determination of red pine terminal leader elongation. art. 203
Photographs, air, plot volumes from large-scale 70 mm. art. 419
Photosynthate, current, and the role of. storage products in the growth of white ash seedlings. art. 319
Phytoactin and cycloheximide in eastern white pine. Translocation and persistence of art. 90
Plant biochemistry. rev. 59
Plot volumes from large-scale 70 mm air photographs. art. 419
Pine, eastern white. Translocation ond persistence of cycloheximide and phytoactin in. art. 90
Pine, loblolly. The frequency and implications of intraspecific root-grafting in. art. 226
Pine, loblolly. Damage and infestation rate by the Nantucket pine tip moth in six stand categories. art. 428
Pine, lodgepole, cone serotiny of, near West Yellowstone, Montana. art. 55
Pine, longleaf. Fertilizer application, inherent fruitfulness, and rainfall affect flowering of. art. 376
Pine, ponderosa, growth and trunk form. Dwarfmistletoe effects on. art. 167
Pine, ponderosa, seedlings. Auxin and the root-regenerating potential in. art. 258
Pine, ponderosa seedlings from three sources. Effect of temperature on initial development. art. 286
Pine, red. Terminal leader elongation. Photogrammetric determination of. art. 203
Pine, Scotch, seedlings. Correlations among fresh weight, dry weight, volume and total length of needles of. art. 426
Pine, Scotch. Varieties in susceptibility to European pine sawfly. Differences among. art. 175
Pine, Virginia, seedlings. The function of the endodermis in resistance to damping-off. art. 108
Pine, western white. Phenotypic variation associated with elevation in. art. 357
Pines. Influence of the root system on height growth of three southern. art. 253
Pines. Variations in the monoterpene composition of the wood resin of Jeffrey, Washoe, Coulter and lodgepole. art. 246
Pines, young slash. Hylobius weevil larvae attack roots of. art. 97
Pits, inter-tracheid, in an eastern hemlock. The distribution and size of. art. 85
Ponderosa pine growth and trunk form. Dwarfmistletoe effects on. art. 167
Programming solution. A. Optimizing the conversion to sustained yield. art. 131
Provenance study. Twenty-five-year results of a red pine. art. 156
Pure culture synthesis of Douglas-fir mycorrhizae with species of Hebeloma, Suillus, Rhizopogon, and Astraeus. art. 121

RADWAN, M. A. art. 265
RANDALL, WILLIAM K. art. 175
Ray tissue, abnormal, in three true firs infested by the balsam woolly aphid. art. 327
Red alder seedcoats, sterilization of, with hydrogen peroxide. art. 104
Red maple. Effects of intermittent acid mine-water drainage on the radial growth of. art. 106
Red pine provenance study. Twenty-five-year results of a. art. 156
Red pine seedlings, influence of light and moisture on the growth of. In Minnesota. art. 182
REIGNER, IRVIN C. art. (rev.) 54
Relation of leaf structure to shade tolerance of dicotyledonous tree species. art. 321
Repellent tests. Design and analysis of forest-mammal. art. 333
Resin canals in Abies. art. (comment) 18
Resin, wood. Of Jeffrey, Washoe, Coulter and lodgepole pines. Variations in the monoterpene composition of the. art. 246
Responses of Douglas-fir to elevated atmospheric fluorides. art. 114
Roads to control sediment. Criteria for designing and locating logging. art. 2
Root buds and the development of root suckers in sweetgum. art. 338
Root-grafting in loblolly pine. The frequency and implications of intraspecific. art. 226
Root-regenerating potential in ponderosa pine seedlings. Auxin and the. art. 258
Root suckers in sweetgum. Root buds and the development of. art. 338
Root system, influence of, on height growth of three southern pines. art. 253
Roots. Seasonal variation in sensitivity of Douglas-fir seedlings to exposure of. art. 140
Royal forest—a history of Dean's woods as producers of timber. rev. 326
Rust resistance. Testing slash pine for. art. 413

Sampling with partial replacement. Area change estimates for. art. 72
Sawfly, European pine. Differences among Scotch pine varieties in susceptibility to. art. 175
SCHELD, J. L. art. 85
SCHOOLEY, HUGH O. art. 102
SCHULTZ, ROBERT P. art. 226
Seasonal variation in sensitivity of Douglas-fir seedlings to exposure of roots. art. 140
Sediment. Criteria for designing and locating logging roads to control. art. 2

Seed, pine. A gibberellin-like substance in immature. art. 29
Seed source, geographic. Phenology of terminal growth in slash pine: Some differences related to. art. 402
Seedcoats, red alder. Sterilization of with hydrogen peroxide. art. 104
Separation of non-viable jack pine seeds by ether flotation. art. 84
Sex determination of from the vegetative buds of aspen. More on the. art. 89
Sex ratio of the gypsy moth. Studies on the. art. 19
Shade tolerance of dicotyledonous tree species. Relation of leaf structure to. art. 321
SHOULDERS, EUGENE art. 376
SIMONS, ROBERT W. art. 400
SIMS, IVAN H. art. (rev.) 212
Slash pine, phenology of terminal growth in: Some differences related to geographic seed source. art. 402
Slash pine, testing for rust resistance. art. 413
SMITH, DAVID M. art. (rev.) 77
SMITH, RICHARD H. art. 246
Spruce budworm damage symptoms related to radial growth of grand fir, Douglas-fir, and Engelmann spruce. art. 274
SQUILLACE, A. E. art. 402
STAIRS, G. R. art. 240
Stand density, measuring and evaluating stocking, in upland hardwood forests in the Central States. art. 38
Sterilization of red alder seedcoats with hydrogen peroxide. art. 104
Stocking and stand density in upland hardwood forests in the Central States. Measuring and evaluating. art. 38
Storage products and current photosynthate in the growth of white ash seedlings. The role of. art. 319
STRANSKY, JOHN J. art. (rev.) 181
STROTHMANN, R. O. art. 182
Sugar concentration and volume yields in sugar maple—An 18-year study. A correlation between. art. 346
Sugar maple. A correlation between sugar concentration and volume yields in. An 18-year study. art. 346
Survival of Poria weirii in small, buried cubes of Douglas-fir. Factors affecting. art. 78

Sustained yield, optimizing the conversion to.—a programming solution. art. 131
Sweetgum. Duration of pistillate flower receptivity in. art. 95
Sweetgum. Root buds and the development of root suckers in. art. 338
Sweetgum seed. Gibberellic acid stimulates germination of. art. 438

Temperature, effect on initial development of ponderosa pine seedlings from three sources. art. 286
TEPPER, HERBERT B. art. 319
Testing slash pine for rust resistance. art. 413
Tetramine, C^{14}-labeled. Translocation and metabolism of by Douglas-fir, orchard grass, and blackberry. art. 265
Theses, forestry, accepted by colleges and universities in the United States. art. 213
THOMAS, R. J. art. 85
TOOLE, E R. art. 316
Tracheid wall metabolism in pine. Evidence for a direct effect of water stress on. art. 397
Translocation and metabolism of C^{14}-labeled tetramine by Douglas-fir, orchard grass, and blackberry. art. 265
TRAPPE, JAMES M. art. 104, 121, 192
TRESHOW, MICHAEL art. 114
TRUE, R. P. art. 440
Twenty-five-year results of a red pine provenance study. art. 156

Variations in the monoterpene composition of wood resin of Jeffrey, Washoe, Coulter and lodgepole pines. art. 246
VASAITIS, ANTHONY J. art. (rev.) 101
Volume yields in sugar maple—An 18-year study. A correlation between sugar contration and. art. 346
VOORHOEVE, A. G. rev. 211

Water stress on tracheid wall metabolism in pine. Evidence for a direct effect of. art. 397
WEBER, RAY art. 90
WECK, JOHANNES rev. 212
Weevils acorn, experiments to control with systemic insecticides. art. 390
WEST, WILLIAM I. art. 213
WHITMORE, F. W. art. 397
WILCOX, JAMES R. art. 95
WILLIAMS, CARROLL B., JR. art. 274
WILLIAMS, ELLIS T. art. (rev.) 326
WILSON, LOUIS F. art. 175
WINER, HERBERT I. art. (rev.) 210
Winter moth, effects on growth and mortality of red oak in Nova Scotia. art. 295
Wood-decaying fungi. Oxygen and carbon dioxide affect the growth of. art. 384
WOODS, FRANK W. art. 226
WRIGHT, JONATHAN W. art. 175

Yellow-poplar seedling-sprout stands. Butt rot in. art. 440
Yield, gross of Douglas-fir. A method of estimation of. For. Sci. Monog. 13 (a separate)
YODER, RAY A. art. 213
YOUNG, HAROLD E. art. (rev.) 313

ZAERR, JOE B. art. 258
ZAHNER, R. art. 397
